

**Department of Zoology Seminar Series
School of Natural Sciences**

Hilary Term 2010

Auk Room, Zoology, 1-2pm Wednesdays

27th January

Host-parasite coevolution and the invertebrate immune response

Dr Tom Little

(School of Biological Sciences, University of Edinburgh)

3rd February

Surprising features of the cytoskeleton of African trypanosomes

Dr. Derek Nolan

(School of Biochemistry and Immunology, TCD)

10th February

The role of song and ecology in bird speciation: From tropical rumble to urban jungle

Dr Hans Slabbekoorn

(Behavioural Biology Group, Institute of Biology, Leiden University, Leiden, Netherlands)

17th February

Aging and fibrosis of the human lens

Dr Lucy Dawes

(School Of Biological Sciences, University Of East Anglia, UK)

24th February

Overview of zoonotic diseases in pigs and their control

Dr Dan Tucker

(Department of Veterinary Medicine, Cambridge University, Cambridge, UK)

10th March

Applying proteomics to aphid biology: From saliva to symbiosis and a genome in between

Dr James Carolan

(Zoology Department, TCD)

24th March

Seeing both the wood and the trees: why we need to get to grips with ecological "noise".

Dr Ian Donohue

(Zoology Department, TCD)
